NEW ADVERTISEMENTS.

The Aldine Company's
NEW PUBLICATIONS
SOLD ONLY BY SUBSCRIPTION.

THE ALDINE: THE ART JOURNAL OF AMERICA.

This splendid enterprise is not only well established in every feature, but is being constantly developed and improved. It to-day stands without a rival in the whole world of periodical literature. The beautiful dog-portrait, "Man's Unselfish Friend," a chromo presented to every subscriber, is a decided hit and will, if possible, add to the popularity which this work has gained. The Art Union feature also promises great and beneficent results, in arousing public interest in the fine arts. Circulars and full information on application.

Parts I, II, III and IV, are now ready:

SUTTON'S
Leisure Hour Miscellany

To be completed in forty parts, issued fortnightly. Each part will contain an elegant front-piece, originally engraved on steel for the London *Art Journal*,

REPRODUCING

At a price within the popular reach, engravings never before offered at less than five times the amount. These plates have been the attraction of

THE LONDON ART JOURNAL.

Each part will contain 26 quarto pages, including the heavy front-piece, on heavy plate paper. A superb title-page, richly illuminated in red and gold, will be given with the first part, and the printing of the entire work will be a worthy representation of the "Alden Press," which is a guarantee of something beautiful and valuable,

At a Cost of 25 cts. a Part.

PARTS I, II and III, ARE JUST PUBLISHED.

THE ART JOURNAL,

Complete in twelve monthly parts, at $1 each. Reproducing the best full-page illustrations from the earlier volumes of THE ALDINE.

Each monthly part will contain six superb plates, with accompanying descriptive matter, and whether for binding or framing, will be entirely beyond competition in price or artistic character. Every impression will be most carefully taken on the finest toned paper and no pains will be spared to make this the richest production of a press which has won in a marvelously short time, a world-wide reputation.

GEMS FROM THE ALDINE,

ESPECIALLY ASSORTED FOR SCRAP-BOOK ILLUSTRATIONS AND DRAWING CLASS COPIES.

A large collection of pictures of different sizes and on almost every conceivable subject have been put up in an attractive envelope and are now offered at a price intended to make them popular in every sense.

Envelope No. 1 (containing 50 beautiful engravings) is now ready, and will be sent, postage paid, to any address for ONE DOLLAR. A liberal discount to agents and teachers.

Scrap-Books.

A splendid assortment of SCRAP-BOOKS have been expressly prepared for the holiday season and no present of more permanent interest can be selected for gentleman or lady, old or young.

No. 1—Half-bound, cloth sides, gilt-back, 250 pp., 12x16 inches..... $5 00
No. 2—Half-bound, cloth sides, gilt-back, 500 pp., 12x18 inches..... 7 00
No. 3—Full morocco, beveled boards, gilt and antique, very rich, 500 pp..... 12 00

Lettered to order in gold at 25 cts. per line. Sent by mail postpaid on receipt of the price.

THE ALDINE PASSE-PARTOUTS.

In compliance with repeated requests, the proprietors of THE ALDINE have prepared impressions of many of their most beautiful plates for passe-partout framing.

The cuts are mounted on a beautifully tinted azure mat, with a handsome red border line. To attach the glass, it is only left for the customer to paste and fold over an already attached border, and this may be done by a child.

27 subjects, 12x15 inches, 25c.; with glass, 50c. Six of this size for $1, when selection is left to publishers.

6 subjects, 10x12¼ inches, 20c; with glass, 45c.
7 subjects, 6⅝x8⅝ inches, 15c.; with glass, 40c.
12 subjects, 11x19 inches, 50c.; with glass, $1.

Sent by mail, without glass, post-paid, for price.

CITY AND COUNTY OFFICIAL PAPER.

TUESDAY,.....a...JAN. 19, 1875.

The Herald Pamphlet.

On Monday next will be issued the third edition of the HERALD Pamphlet. This edition contains twenty-two pages of double column matter, every article of which is discriptive of some thing or some part of Los Angeles valley. The following are the titles to the leading articles: "Los Angeles County and Los Angeles Valley;" "The Southern Pacific Railroad; "The Los Angeles and Pacific Railway;" "Our Railroad Wants;" "Steamers, Rail and Stage;" "The Assessor's Figures," Spadra and the Surrounding Country," "The El Monte District," "Los Nietos," "Wilmington," "Anaheim," "San Fernando," "Centinela Colony," "Compton," "The Tustin Settlement," "Santa Ana," "Cienega and La Ballona," "Westminster Colony," "San Bernardino County," "Semi-Tropical and Other Fruits," "Fruit Drying Works," "What Grains Flourish Here," "The San Gabriel Valley," "Potatoes in Los Angeles Valley," "Mines in Los Angeles County," "Mines in San Bernardino and Inyo Counties," "Marble Discoveries," "Petroleum Oil," "Climatic," "Fuel, Water, Gas;" "Banks and Commerce," "Public Library," "Schools in Los Angeles County," "Churches," "Sea Bathing." Besides these there are many other articles of equal interest. This pamphlet contains more reliable information concerning semi-tropical California than can be found in any other publication. It will be sold at fifteen cents per copy—the cost of publication.

THE best scientific and mechanical journal in the United States and to our notion the best in the world—*The Scientific American*—commenced its thirty-second volume with the beginning of the year 1875. Some one has sent the HERALD the three first numbers of the new volume, and we can truthfully say they are sample copies of a magnificent journal. The engravings, letter press and matter are all that could be asked or expected. No scientist or mechanic can do without the *Scientific American*, and the general reader does not often lay it aside for another publication.

A CORRESPONDENT desires to know why no Board of Water Commissioners have been appointed by the Common Council. The HERALD cannot give the desired information. In his inaugural message, Mayor BEAUDRY urged on the Council the necessity for an early compliance with the law in this particular, but as yet not a word on the subject has been uttered by the Council or any one of its committees. Not a member of the Council could have been elected had he avowed himself opposed to the appointment of the Board during the campaign, and knowing this, it is high time they obey the law and the wishes of the people.

Goodall, Nelson & Perkins.

It is officially announced that GOODALL, NELSON & PERKINS have succeeded to the business of the Pacific Mail Steamship Company on this coast. They do not run or control the Panama line, but the coast steamers running between San Francisco and San Diego are owned by them. This company is well and favorably known to the people of Los Angeles. They for a long time ran an opposition to the Pacific Mail, and run it so well that they soon acquired a fair share of the business and broke up a monopoly that was costing our people thousands of dollars per year. They have now become sole proprietors of all the steamers on the route. It is their determination that neither the traveling public nor our commerce shall suffer from the transfer of the route to them. There will be no advance in freight or passage, and as many steamers will be kept running as are necessary for the accommodation of passengers and shippers. The prompt dispatch and universal kindness which has marked the course of GOODALL, NELSON & PERKINS heretofore is a guarantee that they will secure the approbation of their patrons in the future.

The Rain.

It was recorded in the lost records that about the time NOAH'S ark began to float and those who had not secured passage on that fast sailing and commodious craft found things a little too moist for comfort, an unbeliever who used to sit around the ship-yard and smoke and crack jokes at the uncouth appearance of the ark, swam alongside and asked Capt. NOAH to throw him a rope's end, and on being refused he lost his temper and informed NOAH that he might go to San Diego with his old ark—that he didn't think it would be much of a shower anyhow. That man was drowned. We hope a similar fate has not overtaken the little army of croakers who for the last month have done little else than prognosticate a dry season in this part of the State. They have proven themselves neither prophets nor sons of prophets. All prospects for a dry season have been washed away, and we are assured of sufficient moisture to secure abundant crops. Between last Saturday evening and yesterday noon not less than seven inches of rain fell in this valley. From all parts of the county we hear the most cheering news. The farmers are everywhere jubilant. Those having their fields already seeded have enough rain to warrant a good yield, even should we have a dry Spring. The soil that has been plowed will be immediately seeded, and with a few late showers will yield a bountiful harvest. The prospect for a prosperous year is exceedingly good.

The Independent Party.

In another column will be found the resignation of our townsman, Judge CHARLES LINDLEY, as a member of the State Central Committee of the Independent party. The letter is written in answer to an invitation to be present at the meeting of that committee called for the 21st inst., and contains, in the shape of the author's reasons for resigning his committeeship, his judgment on the party's record and his opinion as to its future. It is the opinion of Judge LINDLEY that the Independent party failed to perform its mission, and having so failed, it has no future. In the main, the HERALD endorses the opinions of the Judge. As the party of reform, the Independent party failed—failed from the day of its coming into power until the day its strength departed, never to return. California was the banner State in the Independent movement. In an almost even-handed fight with the Republican party, which controlled the State, held every office in it and counted its majority by the thousand, the Independent party won a glorious victory. Against the combined forces of the Democrats and Republicans, it elected its leader to the United States Senate. And then, while the shouts of victory were echoing from one end of the State to the other, it laid down its arms, trailed in the dust the flag that had never known defeat, and surrendered body and boots to corporations and office seekers. With a majority in the Legislature, it became the shuttlecock of two minority battledores. With its great leader in the Gubernatorial chair, it was out-generaled and robbed of the spoils which belong to the victor by the shirmishers of the Central Pacific railroad corporation. With the support and endorsement of three-fourths of the voters of the State, this great reform party forgot its promises, and when the people asked for bread, it gave them a stone. Viewed in the light of a reformer and purifier of other parties, the Independent party must be regarded as a grand success. It taught the Republican party that name without principles — promises without fruit — might for a time dupe, but could not always deceive the people. It taught the Democratic party if it hoped ever to again attain the supremacy it must wash its skirts of old notions, old fogies and old fossils and go before the people on a platform made up of sound plank, and must stand on that platform after as well as before the election. These lessons it taught the two great opposing parties, then fell into the hands of men who had stranded those parties—and died. The leaders of the Independent party—those who lead it after the victory—made one serious mistake. They fancied that because the farmers had supported the ticket of their party that they could thenceforth be counted in its ranks. This was a fatal error. The farmers voted the Independent ticket because they believed it was the best of the three in the field. The Democrats were doubtful and the Republican candidates were known to be so closely identified with corporations that they could not be true to the people. Recent efforts of Independent party leaders and journals to force the Grange to avow itself the supporter of the Independent party, indicate that they are still to a certain extent laboring under this delusion. The Grange is not a political party, and all in vain will be the labor of the Independent leaders to force from it an allegiance to them or their party. The Grange is no more the Independent party than it is the Democratic or Republican party. It is a part of each and all of them. It is the purifier of all. The opposing forces in the great political battle, which will be fought in this State next Summer, will be the Democratic and Republican. The Independent party has dwindled to a squad of office seekers, and in that battle they will be known as camp followers. The peope—they who never ask for office—will elect the officers—selecting the best men, no matter whether found on the Democratic or Republican ticket.

Thoroughbred Stock Sold.

[From the S. F. Post, January 11th.]

We learn that H. M. Newhall & Co. bought to-day of the Saxes, importers of Kentucky "Short Horns," three of their fine bulls—yearlings—named "Honesty," "George Dunlap," and "Lord of the Valley." These are all splendid specimens of the Durham bovine. Newhall bought two of Governor Latham some two weeks since, which he has sent to his Monterey county ranch. These from the Saxes he sends to-day by steamer Constitution to his ranch in San Luis Obispo county. We are told he has over seven thousand sheep. He also ships thirty-five Merino bucks to his San Luis Obispo ranch to-day with his bulls. We are happy to note that our leading ranchmen have determined to breed out all their "scrub" blood.

Cold Weather in Montana—Chinamen Freeze to death.

HELENA, MONTANA, January 14th.—Last night the mercury in the thermometers all froze. Small quantities of mercury in vials also congealed. Proof whisky, placed out of doors, froze solid in half an hour. Four Chinamen who left town at 4 P. M., Tuesday, were found Wednesday morning, about half a mile from town, frozen to death. The whisky they had with them in small kegs was frozen solid. A report from Phillipsburg, Montana, states that two Chinamen were frozen to death near that place.

The Sandwich Islands "Ours!"

WASHINGTON, January 14th—Minister Pierce, in arguing in favor of the reciprocity treaty, before the Senate committee, yesterday, forcibly exposed our danger of losing the whole control we have over the Sandwich Island trade, unless we establish closer relations. He opposed the idea of our purchasing the port near Honolulu, because in time the whole group will be ours, almost without asking.

Comments on the President's Message on Louisiana Affairs.

NEW YORK, January 14th.—While here and at Washington there are sharp divisions of opinions about the accuracy of his facts, the President's Message has inspired a general feeling of relief on the part of thinking men of all parties, because while it asserts the strong provocation from the Conservatives for the military intervention, it carefully avoids asserting the latter as a principle or justifiable policy. The *Sun*, *World* and *Herald*, however, violently denounce the message, but the general popular verdict, apparently, is that Grant is less to blame than Congressmen who overlook the President's technical responsibility for the military intervention, in view of the gross illegality of the lawless revolution which such intervention defeated; also, of the fact that the President does not claim the right of military dictatorship which the Louisana action seemed to imply.

The *Times* comments on the message as a moderate, strong sensible document, calculating to make a favorable impression on the country. The President does not justify the military operations at New Orleans on the 4th inst., but regards Kellogg's call upon the military as debatable. He distinctly states his opinion that the constabulary and military force of the State should have been called on first. The Federal military acted under general instructions which could not contemplate the precise occasion. The military error therefore was not committed under his instructions, accordingly there is no occasion to censure him. The President effectually disposes of the Democratic clamor against him. The safeguards against a recurrence of the events of the 4th, lie in the hands of the Republican majority in Congress. The *Times* publishes an elaborate letter from lawyer Houghton, ably reviewing the Louisiana case to show that the body where the military interferred was not the Legislature, but a revolutionary body, which had seized the House by violent and illegal means, and then added to their numbers enough to constitute a majority. Houghton, however, believes Kellogg erred in call on de Trobriand.

The point of the *Herald* is to show that the President's message is entirely different from the one originally written, and that it was recast to prevent the resignation of three cabinet officers, who refused to accept the responsibility of defying public sentiment and orders for military intervention in defiance of the organic and statute laws.

A Grecian Legend.

When Bacchus was a boy he journeyed through Hellas to go to Naxia, and as the way was very long he grew tired and sat down upon a stone to rest. As he sat there, with his eyes upon the ground, he saw a little plant spring up between his feet, and was so much pleased with it that he determined to take it with him and plant it in Naxia. He took it up and carried it away with him; but, as the sun was very hot, he feared it might wither before he reached his destination. He found a bird's skeleton, into which he thrust it, and went on. But in his hand the plant sprouted so fast that it started out of the bones above and below. This gave him fresh fear of its withering, and he cast about for a remedy. He found a lion's bone, which was thicker than the bird's skeleton, and he stuck the skeleton, with the plant in it, into the bone of the lion. Ere long, however, the plant grew out of the lion's bone likewise. Then he found the bone of an ass, larger still than that of the lion. So he put the lion's, containing the bird's skeleton and the plant, into the ass' bone, and thus he made his way to Naxia. When about to set the plant, he found that the roots had entwined themselves around the bird's skeleton and the lion's bone and the ass's bone; and as he could not take it out without damaging the roots, he planted it as it was, and it came up speedily, and bore to his great joy, the most delicious wine, from which he made the first wine and gave it to men to drink. But behold a miracle! When men drank it they first sang like birds; next, after drinking a little more, they became vigorous and gallant like lions; but when they drank more still they began to behave like asses.

A Gentle Bronco.

The other day a member of the Orange Grove Association purchased a quiet, gentle bronco, to use in plowing among the young orange trees. On Saturday we saw that same bronco flying up Main street at Occident speed, with the side of a house attached to his hackamore. The man who has discovered the art of manufacturing whisky, old Tom, gin, and sundry other beverages so cheaply that they can be sold at one cent per drink, and leave a large margin for profit to the retailer, happened to be holding forth just then to a large audience of samplers in front of "The Bank" building, and that gentle bronco made for the crowd of admiring tasters as though he instantly knew that some of them would soon need the side of the house to be carried home on. But they saw him coming in time to scatter and make room for the gentle beast, and he and the side of a house made good time in the direction of the Pacific Ocean. We guess that the Orange Grove man will never chance that quiet bronco among the young orange trees with a plow attached. He's too playful for the business.

We have received a copy of the new City Directory of Los Angeles, compiled by Messrs. Oliver & Armor. It is a very creditable directory, and clearly sets forth the commercial enterprise of this city. The compilers say: "We made the canvass in person and, as far as *we* could, made it correct. The following troubles that have met us we are in no way responsible for: Some of the people did not believe we meant to do anything and would not take the trouble to inform us, leaving us to gather our information from clerks, children and neighbors. Numbers of the Spaniards through loss of property &c., fear any one that writes and, as we now believe, gave false information. In some portions of the city the names of the streets are unknown to the residents and the numbers are so irregular and incomplete as to be of little use. The book has been in press so long that many changes have occurred, though, as far as they could be learned from the daily papers and the signs, changes have been made up to the time of printing each name. As these difficulties and many more have stood in our way, they should in some measure excuse imperfections. Now, as we have spent much time, money and labor to make the directory serviceable, and to benefit advertisers have issued a large edition, thereby burdening ourselves with great expenses, the people should liberally support the work so as to make the benefit mutual."

FOR SALE,

FIVE OF THOSE SIX

ELEGANT RESIDENCES,

Situated on the North side of Main St., Between Second and Third.

ARE now nearly completed and will be ready for occupation on or about the

First day of February next.

They have been constructed with every regard to commodiousness, and are provided with all the modern conveniences, and in a style suitable for the home of a genteel family.

Each lot is 25 feet front by 167 feet deep, and is divided from its neighbors by a high board fence, making it entirely seperate and exclusive.

Each house contains eight rooms. On the first floor are two parlors, with marble mantles; a dining-room, kitchen and servants' bed-room; a large pantry, or store-room and china-closet. On the second floor are three large bed-rooms with corresponding closets, and a bath-room with wash-fount and patent water-closet.

Both hot and cold water can be brought to the upper story, and gas pipes are carried into every room.

There are broad verandahs with porticoes in front and rear.

Every house is hard-finished throughout, the lower rooms having handsome centerpieces. The front windows will have inside blinds; the side and rear ones, the new patent blinds, painted same color as outside walls.

The rear yards are 25x87 feet, and can be laid out as a garden and the front in flower plants.

Each residence will have an ornamental fence enclosing it from the street, with high lattices dividing it from its neighbors.

Situated as they are upon the main street, in close proximity to the business center, anyone may purchase either of them with the confident assurance that it will double in value in the course of the next two years.

Price $5,000 for each house and lot, and the terms can be made to meet the most moderate means.

Six hundred and forty acres of land in and around San Juan Capistrano are being laid off in town lots.

The installation of the officers of South Star Degree Lodge, No. 7, I. O. O. F., will take place this evening. A full attendance is expected.

An old adobe house, on Main street, caved in yesterday, owing to the heavy rains. The adjoining photograph gallery was laid on its side.

The Ventura left for San Francisco last evening. The passengers from here, booked for the upper coast, were unable to make connection.

Over *nine* inches of rain fell in this section from Saturday night until dusk last night. Well may all rejoice.

Reports from Downey, Anaheim, Wilmington, Spadra and San Fernando show that the "genial rain" visited all parts of Los Angeles county.

There was a break in the railroad at Puente yesterday, but it was promptly repaired. The road is "O. K." to Spadra and San Fernando.

There are three or four breaks in the railroad between this city and Anaheim, and communication is suspended. It will take three or four days to bridge the breaks.

A telegram from Downey dated 2 P. M. yesterday says: J. W. Venable reports the total rainfall to 9 A. M. to be nine inches. It is raining a slow, steady rain, with every indication of heavy rains to-night. The rivers are high and still rising.

The "Identical" is now under the management of Messrs. Davis & Goldsmith. Both gentlemen are popular, wide-awake and experts in the tobacco trade, and the "Identical" under the new management is sure to be prosperous.

A dispatch from Wilmington at 9 o'clock last night stated that the condition of Mr. Thomas, who was injured by the railroad accident yesterday morning, was such as to leave little hope for his recovery. He is burned inside, either by steam or hot water.

A dispatch from Spadra dated 2 P. M. yesterday says: The rainfall since 7 P. M. on Saturday up to the present time amounts to four and one-fourth inches, and it is still raining very hard. The Grangers are all jubilant over the prospect for good crops next Fall. The gophers and squirrels are all getting drowned out.

Superintendent Hewitt is satisfied that the Wilmington route will be all right this morning. The Anaheim road is badly washed at the San Gabriel river and the Cayote flats, repairs are already commenced and trains will run regularly in three or four days. The San Fernando train is all right.

On Sunday morning, shortly after midnight, three men made a raid on a house of ill-fame on Los Angeles street (Carrie Porter's) and captured $185. Two of the trio, named Lowrey and Butts, were arrested by Officers Ryan and Sands. It is believed that both men are "hard cases" and that this is not their first effort in crime.

There was a homicide at Anaheim yesterday. In the rear of the Planters' Hotel, Charley Nelson, the porter, was killed by the waiter, named Dan. McCarthy, with a dirk knife, he stabbing Nelson in the side. Nelson had made indecent proposals to McCarthy's wife. He lately worked in this city at the Delmonico. The murderer is under errest.

Walter Rogers and William Potusky have leased the basement of Ducommun's new building on the corner of Main and Commercial streets, and will in a few days open therein a first-class saloon. The name selected for the new place is "The Grotto." Both the gentlemen have had considerable experience in the business and knows how to keep a first-class saloon. Mr. Rogers leaves to-day for San Francisco, where he goes to purchase the stock and fancy fixtures for "The Grotto."

The "Herald" Pamphlet.

The HERALD pamphlet, containing full information of the resources of Los Angeles city and county, is in the hands of the printer, and will soon be out. We have already received orders for over a thousand copies, and still the orders come rolling in. There is still room for a few advertisements, but application must be made at once. The pamphlet will have a larger circulation than any work ever published concerning this section.

The Pruning and Transplanting of Trees.

BY J. J. WARNER.

I propose to give the public what, not like the late Horace Greeley, I know, but what are some of my *thoughts* upon the subjects named in the heading of this article. The chief objects of pruning trees or shrubs are two, beauty of the form and its productiveness.

As the beauty of a production depends upon art and a cultivated and discriminating taste, I shall leave that branch of the subject to those better qualified than myself, and give only my thoughts upon pruning for productiveness.

Before laying his hand, armed with knife or saw, upon tree, shrub, or any other vegetable form, the product of the orchard or garden, the pruner should not only understand, but bear in mind, that in every healthy tree, in its natural state, there is a perfect equilibrium between the roots on the one part and the branches and foliage on the other, and in the forces employed and the functions which they reciprocally perform; and he who would dismember a tree without regard to this fact, should be restrained from entering a nursery or an orchard. Keeping this fact of equilibrium in view, it will be evident that the removal of any limb from a healthy tree, destroys the equilibrium, and the roots must suffer a dimunition of their powers in exact proportion to the amount of foliage-producing branches which have been removed, until by the decay or suspended growth of the roots and the continued growth of the branches, the equilibrium is restored.

Another important fact is, that in a living tree there is a constant circulation of fluid, an upward and a downward flow. The upward flow, with the exception of a small amount of salts, is composed of water, while the downward flow contains the carbon, in the condition of carbonic acid, with which the tree itself, both root and branch is constructed. The carbonic acid, which furnishes the matter for the building up of the tree, is taken from the atmosphere by the leaves, which are laboratories in which the matter is prepared for use in the formation of the structure. Every particle of matter which enters into the composition of a tree, whether it be the roots or branches, or the fruit, has passed through the leaves before taking its proper place in the form. All the solid matter which enters into the root and stem of an embryo plant, until its leaves make their appearance above the ground and gather nutriment from the illuminated air, was contained in the seed when it fell from its parent stock or from the fruit in which it was imbedded before its separation from the parent tree. We thus see the importance of the leaves of a tree. And the roots are no less important than the leaves. All the water required to hold in a fluid state the solid matter which the leaves obtain from the atmosphere is furnished by the roots of the tree. If the roots are unable to furnish the requisite supply of water, the leaves harden and lose their power to extract matter from the atmosphere.

When the matter taken from the atmosphere is employed in the formation of seed or fruit, there must necessarily result a dimunition of the ligneous formation of the tree — of the growth of the woody part. Every observer will have noticed that whenever a tree is unusually loaded with fruit, the growth of wood during the year is but slight. It is from this cause that many fruit and seed-bearing trees only produce fruit or seed biennially. The entire force of the organization being expended upon the formation of the fruit or seed, there is no ligneous growth during that year upon which seed or fruit buds could be produced.

New Mining District.

At a miner's meeting held at Lang's Station, on the 12th inst., a new mining district was formed, called the "Blue Ledge District." It lies north of San Fernando mining district, connecting on the same and extending north to the summit of what is known as Chico Lopez mountain; bounded on the West by the Arroyo Seco, on the East by the Esquididi mine and the old toll-gate; thence on to the summit of the San Fernando range of mountains. The parties making the first discoveries now having their claims in legal shape and form, give me the liberty of informing the press as far as present developments extend, which I will do as briefly as possible. About three miles by the compass and five by trail from Lang's Station, quite a variety of mineral deposits have been discovered. Very extensive gold ledges have been found, of which the lowest test is $2,000 per ton, and running as high as $5,000 per ton, of which as yet but fifteen claims have been properly located. There is room for more, and from all appearances, the last may be as valuable as the first. This test was made with acids, by Mr. Shang, of San Fernando, the discoverer of the mines, and the above is the report he gave me. I have been on the ground and examined the mines, and feel satisfied that they are underestimated. Cinnabar, native silver and lead mines have been discovered within two miles of the same place. Mr. Henry Tomas reports the discovery of a black lead mine within about seven miles. I have always been opposed to sensational reports and excitements, and do not feel like expressing my mind in full as to the flattering prospects of this district, but will simply say that if further developments prove as satisfactory as past tests, it has never been surpassed on the Pacific coast. It costs but little to examine the field, and those hunting mines might do well to turn their attention in this direction. I give it as my opinion that these mines are very rich and inexhaustible. I am the Recorder of the district, and will take parties to the grounds wishing to see them. I also have every accommodation for man and beast, but large parties coming through San Fernando would do well to consult Mr. Shang, Mr. Hilman, Messrs. Look & Lenore, merchants, J. D. Bell, J. McGilvie, Mr. Slater or Mr. Gilman, merchant—all of whom are interested and saw the gold test made. The distance from Los Angeles to these mines is about 50 miles. JOHN LANG.

RAILROAD ACCIDENT.

An Engine Ditched on the Wilmington Road—Three Men Badly Scalded.

The rumor was circulated in this city yesterday morning that an accident had occurred on the Wilmington road, between Compton and Wilmington, resulting in the death of several railroad men. Soon afterward it was officially announced that no one had been killed. The particulars, as telegraphed from Wilmington, are as follows:

A sad accident happened on the railroad this morning, between here and Cerritos. It was deemed advisable, on account of the late heavy rains, to send the locomotive San Gabriel ahead of the regular passenger train. Mr. W. H. Thomas, the Master Mechanic of the company; A. French, Engineer, and Edward Mateer, Conductor, were on board. They proceeded carefully until within a few miles of Cerritos, but before they had run a mile, they struck a place that had been honey-combed by gophers, and the track gave way, suddenly doubling the engine and tender up like a knife, smashing the engine badly.

The three men were badly bruised and scalded. They were extricated from the wreck and brought back to Wilmington on a hand-car and everything done to alleviate their sufferings that was possible.

Dr. Wise, of Los Angeles, and Drs. Johnson and Laudesheimer were in attendance as soon as possible and rendered all the aid in their power. The injured men will recover, but they had a very narrow escape.

A wrecking party is out at the scene of the disaster, and are building a track around the wreck. They expect trains to be running on Wednesday at the latest.

Those few lines over.
And where to get a good cigar, you bet,
They'll early then discover.
Hugh Keenan Keeps at No. 10, Com. St.,
Cigars of the latest brand.
As Pedro is all the go,
Its something nice and grand;
Artists it makes a fine display,
To those who desire,
Something fine to smoke all the time,
And never loose it's fire.
Yosemite vale out beats green seal,
That you hear so much talk about;
You may think its stuff but high life puff,
Sends all the brands quite out.
A man may pass a joke about gymnastics [smoke.
But pleasant it seems to all
Those who want to buy or wish to try,
Please give Hugh a call. Jan13-2w

NEW ADVERTISEMENTS.

CENTINELA LAND COMPANY.

SIX MILES FROM LOS ANGELES.

The Home of the Orange and the Lemon.

AUCTION SALE
—OF—
TOWN LOTS
—AND—
5, 10, 20 and 40 Acre Farms,

WILL COMMENCE ON

Monday, Feb. 15, 1875,

AT 12 O'CLOCK M.,

AND CONTINUE

FIVE DAYS.

The sale will take place on the Rancho. Parties desiring to purchase SHOULD BE ON THE GROUND a few days prior to the sale, in order to EXAMINE THE PROPERTY.

Title,

UNITED STATES PATENT.

Situation.

"Centinela," with the addition of the "Sausal Redondo," contains 25,000 acres. The boundary of the Rancho commences three and a half miles from the city limits of Los Angeles, and extends to the Pacific Ocean.

Topography.

"Centinela" is made up of one broad, level, fertile valley of over twenty thousand acres, and beautiful fertile rolling hills near the ocean.

Soil.

The soil is an exceedingly fertile loam, and is, without exception, the richest and most productive in Southern California. Its vicinity to the ocean insures a crop without irrigation. Excellent wheet has been raised for the last two years upon the hills adjoining the ocean. This wheat field contains 1,000 acres and covers the lightest soil upon the Rancho. There is no alkali or barren land.

Semi-Tropical Fruits.

There are a few bearing orange and lime trees upon the Centinela, and the fruit they produce is of the largest and finest quality. There is an orchard containing 5,000 orange trees three years old, and 1,700 almond, lime and lemon trees. The almond, lime and lemon trees will bear fruit in 1875. The orange trees will bear in five years. There are 7,000 three-year-old orange trees in the nursery near the orchard. Fig, pepper and gum trees grow without irrigation. The entire orchard can be taken care of by three men with six horses. The orchard will be kept undivided by the company to save the expense of each shareholder having a few trees to take care of. Each share will entitle the owner to about 15 trees in the orchard and about the same number in the nursery. The almond, lime and lemon trees will yield an immediate return. In five years each orange tree will produce $20 per annum, or $300 per share for those now planted. There are flowers in the garden in bloom every day in the yea

Sheep.

After the lambing season in January the flock of sheep will number about 14,000 and they will be kept undivided, to save expenses to the shareholders. This will give about thirty sheep to each share. The sheep will produce, in increase and wool, over $2 each yearly, over expenses. They will be grazed upon outlying and unsold lands of the company. The "no fence" law is in force in Los Angeles county, to supply every lot with crystal, cool, sweet water.

Climate.

The climate of the Centinela is, without exception, the finest and most equable in the world. It varies but little throughout the year. The mean temperature is about 60 deg. The mercury falls but little below 60 deg. in Winter and rises but little above 60 deg. in Summer. You sleep under one pair of blankets and with your bed-room window open every night in the year.

Agriculture.

The soil of the Centinela is admirably adapted for all kinds of grain, vegetables and fruit.

Water.

The Centinela creek rises upon the rancho and runs through the northern portion of the tract. It affords an abundance of clear spring water. The source of the Centinela creek consists of several natural artesian springs, showing that artesian water can be obtained by boring.

The Town.

A square mile is laid off at an eligible point on the tract, with lots 25x140; avenue 100 feet and streets 80 feet wide.

A stream of water can be brought in so as to supply every lot with crystal, cool, sweet water.

Provision will be made for a College and Farm School.

A large lot will be set apart for each religious denomination. A block will also be given for the erection of a large hall by the different Fraternal, Grange and Temperance Societies.

Fare.

Parties desiring to visit the land should take steamer from San Francisco to Los Angeles; fare, $12. By inquiring at Temple & Workman's Bank, in Los Angeles, they will be directed to the Rancho.

Apply to

Wm. H. MARTIN,

General Agent California Immigrant Union, 534 California street, San Francisco, bet. Montgomery streets; to

TEMPLE & WORKMAN, Bankers, or Gen. SHIELDS, Los Angeles; or

O. L. ABBOTT, Corresponding Secretary State Grange Immigrant Aid Association, Santa Barbara.

P. S.—A second sale will take place on the Rancho, commencing on MONDAY, the 8th of March, 1875.

Further information will be furnished by the officers and Directors of the Centinela Land Company of Los Angeles, who are:

F. P. F. TEMPLE, President; F. P. HOWARD, Vice-President; J. S. SLAUSON, Los Angeles County Bank, Treasurer; W. H. J. BROOKS, Secretary; J. M. GRIFFITH, of Griffith, Lynch & Co., Los Angeles; General J. H. SHIELDS, Lot Angeles; O. W. CHILDS, Los Angeles; D. FREEMAN, on the Rancho. de2 W. H. J. BROOKS, Secretary.

ENDORSEMENT OF THE

HON. J. ROSS BROWNE.

SAN FRANCISCO, November 28, 1874.

WM. H. MARTIN, General Agent California Immigrant Union—Dear Sir:—I have just visited the "Centinela and Sausal Redondo" Rancho, and driven over the land described in your advertisement. With all my experience in the southern part of California, I have seen nothing to surpass this tract in fertility of soil, beauty of location, and advantage of easy access and salubrity of climate. For purposes of colonization, I know of no large body of land so near a growing commercial centre, in California or elsewhere, to equal it. No part of it is unavailable for farms, orchards or homesteads. It can be subdivided into lots ranging from five acres to several hundred acres and every acre of it can be made productive. Water is abundant and convenient. The land is subject to easy irrigation; and I can vouch for the fact that it will produce anything that flourishes in Los Angeles or Santa Barbara counties. It is my confident opinion that the value of shares in this magnificent tract will be quadrupled within two years—such is the extraordinary influx of immigration to the vicinity of Los Angeles at the present time. Wishing you success in your undertaking, I am, very truly yours, J. ROSS BROWNE.

CITY AND COUNTY OFFICIAL PAPER.

TUESDAY.....JAN. 19, 1875.

THE INDEPENDENT PARTY.

A Truthful and Characteristic Letter from Judge Lindley.

ROOMS OF THE PEOPLE'S INDEPENDENT STATE CENTRAL COMMITTEE,
San Francisco, December 22, 1874.

CHARLES LINDLEY, ESQ.—*Dear Sir:* A meeting of the State Central Committee of the "Peoples' Independent Party" is called to meet at this city, on Thursday, the 21st day of January, 1875, at 12 o'clock M.; your presence at which meeting is respectfully requested, as a member.

The object of the meeting is to provide for calling a Nominating Convention for the nomination of state officers and Members of Congress, to be voted for at the general election in September, 1875.

Also, to perfect the town, city, and county organizations of the party, so as to insure the nomination of Independent People's tickets in the various towns, cities and counties throughout the State at said election, and generally to prepare for a thorough and energetic canvas before the people, as well as to discharge any other business touching the interests of the popular movement, that may be suggested. In case you shall be unable to attend in person, you are requested to give your proxy, for the time being, to any reputable citizen of your county sympathizing with the movement, who will attend.

Respectfully,
W. W. DODGE, Chairman.
JOHN R. SHARPSTEIN, Sec'y.

N. B.—Please inform the Chairman, upon receipt of this, by letter, whether or not you can attend.

LOS ANGELES, Jan. 6, 1875.

Hon. W. W. Dodge, Chairman State Central Committee, People's Independent Party.

DEAR SIR: Your official letter of December 22, 1874, inviting my attendance at a meeting of the Committee, and requesting my immediate reply as to whether I would attend, is before me, and in answer I hereby transmit my resignation as such member.

To avoid any misapprehensions or speculations as to the causes of my resignation, I assign:

I My removal from the District, (First Judicial), for which I was appointed.

II Considerations personal to myself, viz: health, private affairs and inclination demand that I should have as little as possible to do with politics or public life.

III As the People's party and Democratic party—having like platforms—have exchanged prospects recently with reference to their capabilities and power to redeem the country from its political degeneration, it is my expectation to vote, at least for the present, with the latter, so far as its nominees are decent, honest and capable men.

"To bolt is always in order." It is the highest and most sacred duty of an American citizen to pursue such course concerning men and measures, from time to time, as conscience and good judgment may dictate, accepting conventional decision as a *recommendation*, reserving the right to exercise private judgment and discretion at all times.

It *was* apparent to me eighteen months ago that a new party—a common ground—was the only practical means of procuring the union of enough Republicans and Democrats to accomplish a political regeneration. It is *now equally* apparent that this union must be made, if made at all, under the flag and auspices of the Democratic party; whether its name and "war record" are palatable or not. The same line of duty that led me to join with the Independents, now, on the *changed aspect* of political affairs, leads me back to the old organization.

For me, it is not difficult, as I had acted and voted uninterruptedly with that party for thirty years before my connection with the Independents. It can certainly be no more difficult for Independent Republicans to vote with Democrats than it was for me to cut loose from so old an association and to try to help work out the desired result in the *new* and experimental organization, mostly under Republican leaders. Independent Republicans must "swing the circle." They cannot go back to the sinking ship which they properly deserted. They must do this or simply preserve themselves as organized skirmishers, or for local and municipal purposes.

It is neither the time nor place to speculate upon the causes that have prevented the Independents from obtaining and holding the leading position as an antagonist of the Republican party. It should have been the party of redemption. Suffice it to say, that there is not *now* the remotest chance for such a result.

Much good has been accomplished by the Independent party in disrupting the Republican organization in the State, and Governor Booth and his Republican friends, in a great measure, are entitled to the credit. Democrats were but auxiliaries. Much good has also been accomplished in breaking the *power of partizan* obligations among the parties, and in teaching voters to exercise individual judgment and volition at the polls.

With these two results it seems to me that its mission for the present is substantially ended, unless the Democrats become intoxicated by their prospects of success and reswamp their party by bad management and bad nominations, ere they realize complete ascendency in the National Government.

Not only does it seem to me that there is no possibility that the Independents will have any *status* in the coming Presidential election, but I now seriously doubt whether it would be possible to have its composition, homogeneousness, cohesion, unity of purpose and constitutional views, such as to furnish any adequate remedy to the prostrate South and against centralization, any protection to the individuality of States and our legitimate form of government.

The new party might be a *unit* on the question of reforms in the matters of corruptions in office and Civil Service, and yet, might fail in *unity* on the broad principles that underlie the structure of our Government. Its members have been educated in widely different political schools, and have acted in political life on widely different theories.

It must be understood that "adequate remedy to the prostrate South" does not call for the payment of the Confederate debt, nor for slaves emancipated, but for the withdrawal of the bayonets that sustain the robbing, carpet-bag administration, so that the people can rise from their fall, and start again in the race of industrial, social and political prosperity—justice to both the white and black man.

A new party must have cardinal political principles, and a policy to be established and maintained, or be constructed on the ruins of a deceased party that leaves surviving principles, to secure its permanency. It is *now* useless to hope to build, under a new name, on *Democratic ruins*. That party won't die, won't be killed, won't be ruined. Its enemies, and those of its friends, who doubted its ability to ever again reach the control of the Government on account of the prejudices arising from the war, both have tried to bury it at intervals for the past fifteen years, yet it stands to-day, as the *only* opposition party having *any* promise of National ascendency, or it stands as a wonderfully healthy political ghost shaking its dry bones at the head of a military despotism.

It may be hoped that the Patrons of Husbandry, Sovereigns of Industry, Associated Mechanics and Merchants, have become sufficiently independent in politics—freemen—to virtually force all parties to nominate honest, temperate, capable, good men for office, under certain penalty of defeat if they do not—a freeman's volition at the polls.

It will be patriotism in those who cannot sufficiently lay aside their prejudice to act with the Democratic party, to remain as an Independent organization, as a means of further disrupting the Republican ranks, now virtually held together by the power of the bayonet and the "cohesive attraction of public plunder." In my judgment, it will require the combined strategy and power of the Democrats and Independents to overturn the Republican party at the coming Presidential election—by *voting for a Democrat*—probably Senator Thurman or Governor Hendricks—and that, too, whether the latter party does, or does not, retain its organization. There should be mutual recognition of these requirements in party management and in nominating conventions.

I took my pen to give you briefly my reasons for resignation. I have spun them unconciously to great length—the result of touching a fruitful subject, of which I am trying to take final leave.

I regret that circumstances would not permit me to be present at the meeting of your committee, and personally present and discuss this subject.

Trusting that my resignation and comments will be received by you and the committee in the kindly and patriotic spirit in which they are written, and with that broad liberality and charity that always ought to exist among friends who differ in opinion and action.

I am respectfully yours,
CHAS. LINDLEY.

IN THE DISTRICT COURT OF THE SEVenteenth Judicial District of the State of California, in and for the county of Los Angeles.—Mrs. Livy Cannon, plaintiff, against F. Cannon, defendant. Action brought in the District Court of the Seventeenth Judicial District of the State of California, in and for the county of Los Angeles, and the complaint filed in said county of Los Angeles in the office of the clerk of the said District Court.

The people of the State of California send greeting to F. Cannon, defendant: You are hereby required to appear in an action brought against you by the above-named plaintiff, in the District Court of the Seventeenth Judicial District of the State of California, in and for the county of Los Angeles, and to answer the complaint filed therein, within ten days (exclusive of the day of service) after the service on you of this summons—if served within this county; or, if served out of this county, but in this District, within twenty days; otherwise, within forty days, or judgment by default will be taken against you according to the prayer of said complaint.

The said action is brought to obtain a decree of this Court for the dissolution of the bonds of matrimony between plaintiff and defendant and for general relief. Reference is had to complaint for particulars.

And you are hereby notified that if you fail to appear and answer the said complaint as above required, the said plaintiff will cause your default to be entered and will apply to the Court for the relief demanded in the complaint.

Given under my hand and the Seal (SEAL) of the District Court of the Seventeenth Judicial District of the State of California, in and for the county of Los Angeles, this 31st day of December, in the year of our Lord one thousand eight hundred and seventy-four.
